## Why GEMS is Awesome?

### Funding Programs

GEMS offers detailed program tracking with information, budgets, dates, a Dashboard Summary View of Funding Opportunities, and document upload capability.

### Funding Opportunities

GEMS enables seamless creation and monitoring of Funding Opportunities, whether standalone or within Programs. It allows for detailed tracking, including stage requirements, Funding Sources, Review Team, Documents, and Funding Applications.

### Funding Applications

GEMS offers robust, automated evaluation and tracking of Applications. It calculates review scores, manages application scheduling, tracks disbursements, and ensures easy access to application-related documents.

### Account & Contact Management

GEMS efficiently handles Person Accounts, Business Accounts and Contacts. It also supports both internal (Employees) and external (Applicants) contact management.

### External Portal

GEMS offers an external portal for Applicants to register, submit Funding Applications, track application status, and communicate with your team. They can also self-register, select Funding Opportunities, and access the Knowledge Base and FAQs.

### Reports & Dashboards

GEMS includes ready-made reports and dashboards for Funding Programs, Opportunities, Applications, and Budget Tracking. We're also flexible in customizing or creating reports and dashboards tailored to your specific needs for Programs or Opportunities.

### Application Review

GEMS can assign Review Teams for each Funding Opportunity, define roles for Team Members, send assignment notifications, facilitate application reviews, and automate score calculations.

### Risk Assessment

GEMS offers a built-in feature for Applicant Organization Risk Assessment. It provides industry-standard questions for evaluating organizations, which can be customized to meet your specific

### Contract Management

GEMS has built-in capabilities for tracking, monitoring, and evaluating Contracts, Invoices, and Disbursements, including Contract Line Items, Invoice Line Items, and automatic roll-ups.

## GEMS Resolution

GEMS addresses and resolves the following pain points for Grants Management from organizational perspective.

- Heavy Reliance on Manual Processes
- Redundant submission & review of information
- Inefficient process for tracking required documentation

- No risk-based audit/review process
- Data needed to report out to executive level not easily accessible
- Program Integrity response reactive rather than proactive

- Lack of clarity and frequent changes in requirements
- Continuous changes in procedures and policies and no centralized documentation of the changes

- Required forms change frequently, however, timely updates not always available
- Each agency has unique forms related to their programs.
